

IEEE/IFIP NOMS 2023

Network Operations and Management Symposium 2023

8-12 May 2023 // Miami, Florida // USA

Call for Patrons

Integrated Management Towards Resilient Networks and Services

Network technologies evolve at a fast pace: 5G networks are being deployed and 6G network technological components are already developed and the overall architecture is in an active specification phase. Softwarization is being generalized at all levels of the protocol stacks and agile processes are in place to speed up dynamic service delivery and quality assurance across the globe and beyond. Digital twins of networks emerge to ease and automate the huge demand on monitoring, control and management of the underlying highly dynamic environments. Finally, numerous machine learning approaches are already utilized for optimized control, security and management. The dynamics and manageability of networks are of major value to maintain connectivity and service quality under extreme external conditions like the pandemics or in a situation of war. All-level programmability also opens new challenges to make the complex task of networking resilient.

About IEEE/IFIP NOMS 2023

Held in every even-numbered year since 1988 with its sister conference IFIP/IEEE International Symposium on Integrated Network Management (IM), the 2023 edition is the 36th NOMS edition and the first ever taking place on an odd-numbered year bringing together the best of both outstanding conferences, a great achievement for the network management community. In addition to being an historical event for the scientific community, NOMS 2023 will host an exciting program including keynotes, panels, technical sessions, demo sessions, dissertation session, mini-conference sessions, poster sessions, tutorials, and workshops.

Patronage Benefits

Four levels of patronage with benefits are provided to promote your company among international experts and conference attendees. The IEEE/IFIP NOMS 2023 Patronage Chairs will work with your company towards maximizing the value of these packages; we will be happy to work with you to customize a package to best fit your needs.

Level	Fee	Benefits
Platinum	\$7,500	<ul style="list-style-type: none">• Three complimentary Full registrations for conference;• 20% discount on up to 2 registrations for additional company participants;• Logo on all conference programs;• Logo on conference website, with link to company's website;• Company-supplied banner prominently displayed during the Conference;• Naming of your company at the opening and closing to highlight the patronage.
Gold	\$5,000	<ul style="list-style-type: none">• Two complimentary Full registrations for conference;• Logo on all conference programs;• Logo on conference website, with link to company's website;• Company-supplied banner prominently displayed during the Conference;• Naming of your company at the opening and closing to highlight the patronage.
Silver	\$3,000	<ul style="list-style-type: none">• One complimentary Full registration to conference;• Logo on all conference programs;• Logo on conference website, with link to company's website.
Bronze	\$2,000	<ul style="list-style-type: none">• Logo on all conference programs;• Logo on conference website, with link to company's website.

Please contact

Filip De Turck, Ghent University – imec, Belgium (filip.deturck@ugent.be)

Alexander Perez-Pons, Florida International University, USA (aperezpo@fiu.edu)

to inform us about your choice (Platinum, Gold, Silver, Bronze) and potential requests.

We look forward to collaborating with you!
